

## Activity - Volcanism Exploration Expedition

Name:

Date:

In this activity, you are going to explore the national parks that have volcanoes or volcanic features. You will conduct your expedition through the volcanism knowledge center, the case studies of parks with volcanic features, and the websites of parks featured in the knowledge center. You may also use books, magazines, or other sources, but these are optional. Explore a few different parks, and select your favorite. Then answer the questions on this page.

1. Which park did you select? \_\_\_\_\_

2. Where is the park located? \_\_\_\_\_

3. Briefly describe the park. \_\_\_\_\_

---

---

---

---

4. What features at the park relate to volcanism? \_\_\_\_\_

---

---

---

---

5. What is something new you learned about the park that interests you?

---

---

---

6. Would you visit this park? Why or why not? \_\_\_\_\_

---
